Box lunch will be
provided for volunteers!

Stay for the presentation
by Meghan Peoples,
Texas A&M Native Seed
Program.

NORTH TEXAS MASTER NATURALIST

THE DRAGONFLYER

Fall Aboard!

This issue highlights our children's education programs at T.R. Hoover and Twelve Hills and insights from the Lights Out Symposium. Our North Central Texas autumn also comes into focus with a colorful exploration through a yellow lens. Autumn continues as a theme with a Final Thought on the Honorable Harvest.

**Use our QR code to
download Issue 94!**

The moth kit is available for loan!

It has four setups and can be used for outreach events or personal use

Come check it out after the meeting - we'll be observing nocturnal insects at the Brookhaven Pollinator Garden. We'll have members of the Class of 2025 Moth Kit project team and Sam K. on hand to look for fun bugs.

Great work to the Class of 2025 Moth Kit Project Team for putting together this resource. It has been to over half a dozen outreach events!

Questions? Beth Andresen bethisvibrant@yahoo.com

A Special Contest: Name Those Naturalists!

We know that it's a *pride of lions*, a *gaggle of geese*, a *colony of ants*.

But what's the name for a group of committed naturalists in the field sharing information and ideas?

(Here, on a fall grass identification walk at Spring Creek Forest Preserve, Sept. 2025). Fill in the blanks... "A _____ of _____"

Submit your entry (one per person) to springcreekforestpreservation@gmail.com by **Wednesday, October 15.**

The winner will be announced in our November e-news and on the Preservation Society Facebook page...and received a **\$25 Academy Sports and Outdoors gift card!**

Texas Master Naturalist 2025 Annual Meeting

October 16-19 | College Station, TX

Please join our group on Slack to plan ahead and stay connected during the event!
